SAURABH GANBOTE

Karmala, Maharashtra, India | Phone: - 8421944150 | Email: - saurabhganbote4@gmail.com|
LinkedIn: - Saurabh-ganbote|

Skills

- Programming Languages: - Python, SQL, UI/UX, HTML, CSS
- Soft Skills: - Communication, Team Building, Problem Solving, Decision Making

Internships and Training

Amplifier Electronic **15 July 2025 - 16 August 2025**

- Internship
  Worked as Python Application Development Intern
  Focused on coding, debugging & application development

Walstar media LLP **16 July 2024 - 31 July 2024**

- Industrial Training
  Learned HTML, CSS & JavaScript
  Built responsive web designs
  Gained knowledge of front-end tools & workflows

Extion **1 October 2024 – 31 October 2024**

- Internship
  Worked on HTML, CSS & JavaScript
  Learned frontend development principles & best practices

Projects

Agri Seva System

- Developed a web-based Agri Seva System to provide farmers with crop information, weather updates, and details about government schemes. The platform offers a simple and user-friendly interface to help farmers access essential agricultural resources online.

Surveillance Camera Car

Built a Surveillance Camera Car using ESP32-CAM to enable real-time video streaming over Wi-Fi. The system allows remote monitoring and navigation using a motor driver module. This project helped me understand embedded systems, wireless communication, and real-time surveillance applications.

Distance Measuring Equipment

- Developed a Distance Measuring Device using NodeMCU ESP8266 and Ultrasonic Sensor (HC-SR04). The measured distance is displayed on an OLED screen, making the system compact and portable. This project strengthened my knowledge of IoT, sensors, and real-time data measurement.

Publications / Research

A comprehensive review of 5G/6G-enable V2V communication for emergency response optimization | Link

- Published a research paper focusing on IoT-based smart traffic solutions using 5G/6G-enabled Vehicle-to-Vehicle (V2V) communication to improve emergency response efficiency and reduce response time in critical situations.
  Date: - (26/11/2025)

Certifications

Internet Of Things - NPTEL
Own Static Responsive Website – NxtWave
MCP (Workshop) – NXT Wave
LED Bulb Manufacturing – Workshop
Intelligent

Education

Adarsh Institute of Technology & Research Center, Vita Sangli **Pursuing**
Bachelor of Technology in Electronics & Telecommunication

Cusrow Wadia Institute of Technology, Pune **June 2023**
Diploma in Electronics & Telecommunication | 71.12%

K.A.J.V, Karmala **March 2020**
SSC | 75.40%

Languages

- English, Hindi, Marathi
